Professional Experience

Service Operation Automation

Telefónica

Madrid, ES

Jul 2024 – Jun 2025

- Developed version 2.0 of the Telefónica Tech portal using PHP, MySQL, and Python.
- Automated processes in cloud and cybersecurity environments using Java and Spring Boot, focused on process optimization.

Frontend Developer

Clear Sight Online

Vancouver, CA

Dec 2021 – Apr 2023

- Developed web applications using ReactJS v17.0 and MUI v5.
- Built internal platforms for staff communication and metadata inventory management.
- Implemented scaffolding and CRUD screens using TypeScript, observables, and promises.
- Followed Agile methodologies (Scrum, biweekly sprints) with Jira and Confluence.

Web Developer

Check&Life

Guadalajara, ES

Aug 2020 – Nov 2020

Projects

Transcendence

42 Madrid 2024

- Real-time multiplayer Pong web platform with OAuth2 authentication, live chat, and tournaments. Built with Django, PostgreSQL, and vanilla JavaScript, deployed with Docker.

Inception

42 Madrid 2023

- Containerized service infrastructure using Docker Compose: NGINX, WordPress, and MariaDB, configuring networks, volumes, and environment variables inside a virtual machine.
